

COMMITTEE REPORT

Committee: Basin Water Management Committee

Meeting Date: October 12, 2016

Present: D. Michalko (Chair), D. Ahlen, D. Arrighi, M. Barbosa, R. Bow, S. Chapman, T. Cherry, D. DeJesus, P. DiMaggio, C. Feilen, G. Galindo, M. Garcia, C. Gott, R. Hansen, F. Heldman, E. Hitchman, G. Hofer, B. Lewis Jr., J. Macias, T. Mortenson, L. Noriega, S. Patton, R. Rich, T. Tait, A. Tesfaye, C. Venegas and P. Zampielo

Staff Present: T. Zampielo, K. Gardner, S. Johnson and K. Smead

I. Tier 1 Imported Water – Cyclic Storage

Mr. Tony Zampielo reported that staff had been asked to review the current assessment structure and potential alternative scenarios to deliver additional Supplemental Water, in response to the extended drought and lack of rainfall, runoff, and recharge in the Main Basin.

Mr. Kevin Smead, Stetson Engineers, provided an overview of Watermaster's current assessments and how they are defined in the Judgment. Additionally, he presented six alternatives for maximizing imported water purchases to augment natural water supply.

Following a detailed discussion amongst the Committee, staff was instructed to refine the alternatives and reconvene the Basin Water Management Committee meeting, on October 19, 2016 at 1:00 p.m.
