

COMMITTEE REPORT

Committee: Basin Water Management Committee

Meeting Date: June 8, 2016

Present: D. Arrighi, B. Bowcock, J. Byerrum, S. Chapman, D. Colby, P. Di Maggio D. De Jesus, C. Feilen, A. Fellow, W. Goehring, C. Gott, E. Hitchman, H. Lee, B. Lewis, T. Ma, K. Manning, J. Macias, D. Michalko, G. Morrow, M. Na, L. Noriega, S. Patton, J. Pellissier, J. Prior, R. Rich, R. Trejo, C. Venegas and P. Zampielo

Staff Present: T. Zampielo, S. Johnson, R. Serna and K. Smead

I. Update on 3D Model

The Executive Officer, Tony Zampielo, reported on the current status of the San Gabriel Basin Groundwater Flow Model Development. A Powerpoint slide show was presented on the background, goals and objectives, flow model, project schedule and the fiscal year 2015-2016 accomplishments. The Executive Officer stated that with the 3D model, a visual geology of the Basin, will be available and will show significantly more information when completed. Stetson Engineers also indicated that they will be comparing the data with other models that have been completed to verify the accuracy.

The next phase (Phase 3) for fiscal year 2016-2017 will be the model construction, calibration and baseline model, which will include (sensitivity analysis and identification of model limitation)

FOR INFORMATION ONLY -- NO ACTION REQUIRED

II. Other

None.
