---

### **I. Quagga Mussel Management Plan**

Mr. Zampiendo, Executive Officer reported on the mitigation plan for the Quagga Mussel currently under review by Los Angeles County. He stated that ongoing samples have been negative for presence, but the plan will proceed to be used in the case of any future incidents. Mr. Zampiendo referred to a presentation prepared by Stetson Engineers.

Mr. Kevin Smead, Stetson Engineers, discussed the next steps for the Quagga Mussel Control Plan. In the report, Mr. Smead identifies the development of a monitoring program and control methods to be used in the event Quagga Mussels are confirmed present in the State Water Project System. Watermaster and other stakeholders will work together to complete the draft report prior to final submittal to Fish and Wildlife.
