I. Final Review of Salt and Nutrient Management Plan, Stakeholder Meeting

Executive Officer, Tony Zampiello, reported that staff has completed the final draft of the Salt and Nutrient Management Plan (SNMP).

Mr. Kevin Smead, Stetson Engineers, reviewed the components of the SNMP and discussed the methodology used in determining the Basin assimilative capacity. He also thanked the various stakeholders (MWD, Los Angeles Sanitation District, Responsible Agencies) for their input through the process. The next step toward finalization of the SNMP is for Watermaster to complete a California Environmental Quality Act (CEQA) report and file with the Regional Board.
